MPX TESTING IN WYOMING

When to Get Tested

If you've had close contact with someone who has monkeypox

If you have symptoms of monkeypox

Call Wyoming Public Health at 1-866-571-0944 to schedule testing.

Testing is also available through emergency rooms and some doctors' offices.

**PEOPLE LIVING
WITH HIV ARE
AT HIGH RISK
FOR
MONKEYPOX**

YOU ARE ELIGIBLE FOR THE MPX VACCINE IF...

You have engaged with sex work

You are a MSM who has or intends to have anonymous partners

You had sex at a gathering in a region where MPX is spreading

You were assigned male at birth and have anonymous partners

You were assigned male at birth and have had an STI this year

You have had sex with someone with any risk for monkeypox

You have had sex in a commercial sex venue

Call Wyoming Public Health at 1-866-571-0944 to schedule vaccination

*MSM: Man who has sex with men.

This includes both cisgender and transgender men
